

Classifying Animals

When we think about the five vertebrate groups we can see differences and similarities very easily. In the table below answer the questions and write down as many animals that fit into the group as you can.

Animal Group	What is covering my body?	What do I use to breathe?	How do I have babies?	Am I warm or cold blooded?	Members of the group that I have seen here today at Kirkley Hall
Fish					
Amphibian					
Reptile					
Bird					
Mammal
